Visit "[Come With Me](#)" on [MotoLyrics.com](https://MotoLyrics.com)

You and me stripped of all we ever could have been  
And all we could have seen.  
So walk with me 'cos I think that we both have seen  
That no one stays clean  
Come with me to a place where we, we could dream out  
loud  
Come with me to a place where we, we could dream out  
loud  
You can grow to be old and maybe even wise  
But you can't grow young  
So don't let go 'cos there's still so much to feel  
And songs to be sung  
Come with me to a place where we, we could dream out  
loud  
Come with me to a place where we, we could dream out  
loud  
Hear us call  
And see us fall  
On our knees and crawl  
Come with me to a place where we, we could dream out  
loud  
Come with me to a place where we, we could dream out  
loud
