Say you'll never let me go
Say you'll never let me go
It's just the way it is

Say you'll never let me go, say that you'll be by my side
This will keep our love alive, it's just the way it is
I always dream of the day, Baby, that I will hear you say
That I will be the only man, it's just the way it is
If you could look within my mind, you'd see
I think of you girl all the time
Even though you're so far away, it's just the way it is
Can't you see nothing has changed,
Everything remains the same
Even though you wear my wedding ring, it's just the way it is
Say you'll never go away, say that you'll be by my side
This will keep our love alive, it's just the way it is
It's just the way it is
It's just the way it is

Remember how it was the first time we met
We were in love, that's the way it get
Remember how it was the first time we made love
We were together

I always dream of the day, just like the other day
Girl, I will hear you say, it's just the way it is
If you could look within my mind, you'd see
I dream of you girl all the time
Even though you're so far away, it's just the way it is

It's just the way it is
It's just the way it is
