"Saving All Your Love"

Are you savin' all your love for me
Savin' all your love for me
Savin' all your love for me
Are you keepin' it warm

Call me good, call me nice,
Call me anything you want, Baby
Could be wrong, could be right
As long as I know that you'll always near me
Girl I know that your love
Will last throughout all times
And I know that your love
Will stand the test of times

Call me good, call me nice,
Call me anything you want, Baby
Could be wrong, could be right
Call me good, call me nice,
Call me good,
Call me good,

Savin' all your love
Savin' all your love

C'mon and dance
C'mon and dance
Do you wanna dance
