It seems so peculiar the way that we are
When I want to be closer you drive us apart
I'm lost in the drama you want me to play
If you love me if you need me let me know
But Don't treat me this way

I rest in your vineyards your words are so sweet
You see me as your servant when I kiss your feet
You smile like a goddess that's sculptured in clay
If you love me if you need me let me know
But Don't treat me this way

I know what they all say
You're going your own way
I'm a star in the wrong play
You're treating me lightly
I'll die ever slightly

I'm not your Messiah you kiss and betray
If you love me if you need me let me know
But Don't treat me this way

On nights of indulgence it's easy to smile
There's nothing I can ask for. Your eyes are so mild
It's after the loving I honestly pray
If you love me if you need me let me know
But Don't treat me this way
