"Make It Always Be Too Late"

Visit "[Make It Always Be Too Late](#)" on MotoLyrics.com

What I want is everything to clear
So let the clocks be wrong
Let the evening be longer, let me drown in here

'Cause what I want gets clouded by the sun
I can't see beyond
The petty things that living here brings everyone

So get lost with me, let the whole world wait
Make it always be too late
Make it always be too late

'Cause what I want is right before my eyes
So set me up a drink
Pull the shutters down on all those prying satellites

'Cause what I want is everything to clear
So if you stop your watch
You might stop the morning's cruel hammer falling
here

So get lost with me, let the whole world wait
Make it always be too late
Make it always be too late
Too late
