Let your waist pop (pop), when the bass knock (knock)

Yeah, I flood the watch to the top until there's no clock (clock)

Can't even tell the time, but you know it's mine

What time is it ma? It's twenty karats after nine

Are you dehydrated? Well let me quench your thirst

Check it, but first thing first, girl let's do what we rehearsed

And don't get nervous now, just show me break-breaky

Get up and take a stance and if you wanna get me
