Hey man, what's goin' on
It's 'bout time, now it won't be long
To keep on, on, on, on and on
So you'll stay rude and sing a song

'Cause you move to a different sound
'Cause you move to a different sound
'Cause you move to a different sound
'Cause you move to a different sound

I seen you in your favorite room
Your feet now touch the ground
I can tell in this part of town
Well, you just came so keep it down

'Cause you move to a different sound
'Cause you move to a different sound
'Cause you move to a different sound
'Cause you move to a different sound

Speak up, new girls and boys
You're some people who got no choice
So just go with your inner voice
You get down now and bring the noise

'Cause you move to a different sound
'Cause you move to a different sound
'Cause you move to a different sound
'Cause you move to a different sound

'Cause you move to a different sound
'Cause you move to a different sound
'Cause you move to a different sound
'Cause you move to a different sound

'Cause you move to a different sound
'Cause you move to a different sound
'Cause you move to a different sound
'Cause you move to a different sound
