Motions fall in time  
In rhythm with the swaying light  
The beat controls the night  
Move and house your body right

(chorus)

Beat the rhythm now  
I'm always calling for more  
Beat the rhythm baby  
I'm always looking for  
There's nothing else to say

When the sound waves are receiding  
The beat moves in your way  
I'll give in not to stay away  
repeat chorus

You're a slave  
Of the speed dimension  
In wild rotation  
And cold intention  
repeat chorus 2x fading
