I thought its safe...simply, relate
Lean to each way, feel death slow paced
You know lies pay more than honesty
New hope, so tall, once here, now gone

Kicking dirt up to the sky
Watch it fall right in your eyes
Admit it - a little - you did it for the money
The greener is on the other side of... here.

Times like these, I miss my car
Where's my wheels, I miss that car
Dog bites, dog chews, the forecast came true
& your bones too late. Im full anyway

Kicking dirt up to the sky
Watch it fall right in your eyes
Admit it - a little - you did it for the money
The greener is on the other side of...here

Times like these, I miss my car
Wheres my wheels , I miss that car
Lazy half-wits, stock full of bullshit
You'll hate you more - than me -for sure

Kicking dirt up to the sky
Watch it fall right in your eyes
Admit it a little you did it for the money
The greener is on the other side of here
