Hi.

Have you ever been out to Long Island?
Sunny, warm and pleasant out there...
If you've never been anywhere else... you're fine
I know we just met but you're such a nice guy
I don't usually date, but I'll try...
I'd really like to know you better
So can I give you my number?

Baby, let me hump your leg
I swear, I'll feel so much better off

Baby, my love is dead
I've had no action in weeks and weeks

Baby let me hump your leg
You've been so nice for almost two days
Baby, my head still aches
When I think about all my mistakes

Baby let me hump your leg
All I wanna do is get down with you
Baby it's just hurts my head... when I think of you
I wanna cry instead...

Baby let me hump your leg
All I wanna do is get down with you
Baby let me hump your leg
Maybe this time I'll let you drive

Even though we live so far apart,
Ooh, I'll getcha
I'm diggin' you so hard
