It's been so long now  
You still can't figure it out  
You're golden, act your act  
I feel the 'casual's dead  
I feel my heart attack's back

I try to call you out  
You're somewhere downtown  
You need to come over - come over right now  
And make me want to scream - scream out loud

Baby, If you were mine I'd tell you all about it  
And talk of all the good times - you know that we'd be  
having  
So come on throw me a line, I'd be so quick to catch it  
And talk of all the good times - you know that we'd be  
having

You made me so tired...  
You're taking too long...

Mighty luscious, so fine, an overwhelming havoc  
You hear no reason or rhyme, what can I do about it?
