It's on my mind all the time  
Things keep getting so hard  
Hits on my weakness

His ride's so sly... (just caught my eye)  
Some technical feedback... (scientific minds think alike  
all the time)  
But I'll stay right here... (said we'd fly away, said we'd  
fly away)  
He's got future genius... (the kind you want to own,  
when you're far from home)

You go, I follow

Dr Who warps... (my mind goes wide)  
With me in hand... (shape change comes as no  
surprise)  
Out of this world... (going out beyond the beyond)  
To space for the weekend... (I wanna fly away, I wanna  
fly away)

Coming back's so hard... (feel out of time)  
Hits on my weakness... (shape change comes as no  
surprise)  
It gets you right "here"... (want more than I can afford  
and now)  
Where you most feel it... (the things you can't control  
when you're far from home)

Things keep getting so hard  
Hits on my weakness
