

## **Telenovela Star "Genius"**

Visit "[Genius](#)" on [MotoLyrics.com](https://MotoLyrics.com)

Everyone says you're a winner, even though you never  
cross the finish line  
They look to you for all the answers to the same old  
questions you always ask yourself

You look for sympathy from everyone you meet  
There must be somebody that looks just like you

The world surrounds a perfect saviour and it's so hard  
to make it on your own  
They shower you with affection for just a little bit of it in  
return

You look for sympathy from everyone you meet  
There must be somebody that looks just like you

You're a genius, you're smarter than anyone else  
You're a genius, you can't help yourself
