Do I want you?... Yeah  
And will I need you?... Yeah  
I know some things may seem  
Daunting like the memory but in you  
I see, the gods are looking down on me

While you run around in circles in my brain  
I realize you are the sweetest to come be with me  
And I feel the ecstasy running wild inside of me  
Yeah yeah yeah

Will I love you?... Yeah  
And will that feed you?... Yeah  
When you let yourself free, and open up  
Your heart to me I'll keep my promise true  
My promise true

While you run around in circles in my brain  
I realize you are the sweetest to come be with me  
And I feel the ecstasy running wild inside of me  
Yeah yeah yeah

In the fields that make you sad  
Falls a rain to wash the bad  
Feel you rise up from the ash  
Walking from the aftermath

While you run around in circles in my brain  
I realize you are the sweetest to come be with me  
And I feel the ecstasy running wild inside of me

While you run around in circles in my brain  
I realize you are the sweetest to come be with me  
And I feel the ecstasy running wild inside of me  
Yeah yeah yeah
