Sleep until the end of time
And rest as you were mine
They say you're lacking speed
Run, before our heaven breaks
Eventually she wakes
To burst into a thousand tears

Oh, I can't feel you, 'cause I am full of glue
The vault behind this jealous glance is blue
Pounce on me

Feed their hands with your sweet tongue
To save my wooden lung
it's cold and I'm not here
Light the light blue sky above
The fields are filled with love
My efforts were in vain

Walking in places that my mind thought of quite
constantly
Feeling the sun that this fall's sky pours out incessantly
Summer's almost ending here
Winter's coming oh so near
