I'm not taking your shit, your manipulation
I may be proving you right by retaliating
But I can't wait all my life for your validation
I promise to fight your narrow mindÂ...

Didn't you know? I'm unattached, unbound
Didn't you know? I've sent my echo out
You'll see, I'm swimming to the surface
Coming up for airÂ...

I can tear down these walls, your web is breaking
Best keep your mouth shut, no more faking
Try to make me feel small, I'm taller than you'll ever be
High above I rise, you've got nothing on meÂ...

Didn't you know? I'm unattached, unbound
Didn't you know? I've sent my echo out
You'll see, I'm swimming to the surface
Coming up for airÂ...

Try to make me feel small, I'm taller than you'll ever be
I can tear down your walls, you've got nothing on
meÂ...

Didn't you know? I'm unattached, unbound
Didn't you know? I've sent my echo out
You'll see, I'm swimming to the surface
Coming up for airÂ...
