Girl, I can't believe my ears
Are you really telling me goodbye?
See, you're taking away my reason for living
And you won't even tell me why
Before you walk out the door
There's something I want you to know

That I could never ever love another
After loving you
No other love would I share
'Cause none can compare after loving you

It was only yesterday
Your words are still fresh in my mind
Baby you said, long as the rivers flow
Each day you'd love me more
Now you wanna leave me behind

Listen, baby
I don't know what it's gonna take
To make you stay
I just know I've got to find a way

'Cause I could never, never, never, ever love another
After loving you
No other love would I share
'Cause none, none can compare after loving you

So baby, please stay beside me
I need your sweet love to guide me
Oh, baby, baby, baby
Baby, baby, baby

I could never love another
After loving you
I could never love another
After loving you

Baby, baby, baby, it was only, only, only, only
yesterday
Your words are still fresh in my mind
I remember you said, long as the rivers flow

Each day you'd love me more
Now you wanna leave, leave me behind

Listen, baby
I don't know what it's gonna take
To make you stay
I just know I've got to find a way

'Cause I could never, never, never never, ever love
another
After loving you
No other love would I share
'Cause none, none can compare after loving you

Ooh, baby, on my bended knees
I'm beggin' you to stay here with me

Baby, baby, baby, baby
I could never, never, ever, never love another
After loving you
No other love would I share
'Cause none can compare after loving you, baby, baby
