Wish that I could wind
Like a spiral spare through time
To your body next to mine
Warm and satisfied

Wish that I could catch
A night train to the past
Climb aboard and hear you ask
Darling come inside

Memories, memories
Sweet, sweet memories
Of days gone by
That make me cry

Memories, memories
Sweet memories that make me sad
They take me back to you
(Memories, memories)

Watching falling stars
On the grass by my own car
Making love there in the dark
Thinking we're alone

Old man shined his light
Trying not to act surprised
He left hard and all uptight
Told us to get on home

Memories, memories
Sweet sweet memories
Of love we shared
Of love we shared

Memories memories
Sweet memories of love we shared
We will never share them again
(Memories, memories)

Memories, memories

Wish that I could wind
Like a spiral spore through time
To your body next to mine
Warm and satisfied

Wish that I could catch
A night train to the past
Climb aboard and hear you ask
Darling come inside

Memories, memories
Sweet, sweet memories
Of days gone by
You make me cry, baby

Memories, memories
Sweet sweet memories that make me sad
They take me back to you
(Memories, memories)

To you, baby
To you, to you
You, you, you, you, you
(Memories, memories)
