That's a pill and you've got to take it
That's the pill you've got to take
That's a pill and you've got to take it-
I won't rest until you take it.

That's the heart that you made
That's a heart and the both of you made it
That's the heart that you made-
I won't rest until I break it.

It's l'histoire de la family.
It's l'histoire de la fam.
It's l'histoire de la family.
I won't rest until I forget about it.
I won't rest until I don't care.
I won't rest until I forget about it.
I won't rest until I don't care.
Lalalalalalalalala.

That's a razor and you'll make a threat.
That's a razor, make a million billion threats.
That's a razor and you'll make a threat-
And I won't rest 'cause I heard it all before.

My behind is a beehive
There's a buzz in my backside
My behind is a beehive.
I won't rest while you break my will.

I love the valley.
Je t'aime the valley, oh!
I love the valley
I am an orphan de la valley.
I won't rest until I forget about it.
I won't rest until I don't care.
I won't rest until I forget about it.
Lalalalalalalalala.
