Trying to comprehend actions destinations
Trying to understand motivations and consequences
What's inside no one knows
Will I die be put down below
Weakness succumbs but I shouldn't be weak
Mind tries to hang out but it's failing.
Suicide is a perment answer
To a very temporary problem.
The time at hand when will it pass
Stop feeling like the place
I'm in is last persistence in optimism
It's the only way to stop thes cataclysm
Violent cycle exaggeration pull together no hesitating
Weakness succumbs but I shouldn't be weak
Mind tries to hang on but it's failing...
Pull together near completion
Forced to reach this decision.
I don't like what I am seeing
Everything around is crumbling down
Simple obsevation fails description.
