You are the flower  
Sparkle in a thousand colours  
You are the sun  
Dry the tears of sorrow

You are an angel  
Chase my shadows away  
You are the paradise  
Where I want to stay

You are the haven  
While the world storms  
The centre of the universe  
Infinite and without form

You are the fever  
Burning in my soul  
You are the cross  
I hang naked and cold

DESCEND FROM HEAVEN  
COME INTO MY ARMS  
DESCEND FROM HEAVEN  
WIPE THE SINS AWAY
