Clock strikes midnight  
The mission has begun  
A cinderella search  
To find the chosen one  
Cheap thrills and nasty pills  
Strobelight ecstasy  
Eyes like black diamonds  
Shining like the sun

Electric, electric  
Hellfire kiss  
Electric, electric  
Hellfire kiss

Closer and closer  
The ritual has begun  
It's a give and take  
A tormenting wait  
No words are needed  
As our bodies sing  
In perfect harmony  
Lips meet electricity

Someone died  
And made you a queen  
In a fantasy world  
Where we search the unreal  
Someone died  
And made me a king  
In a fantasy world  
Where nothing's real
