I'll lay an egg which
Will hatch a thousand thoughts
I'll crawl inside your brain
And ravage your untouched soul
I'll awake the beast
That slumbers deep inside
Give birth to a new dimension
Which will transform your life

I PUT MY SPELL ON YOU
THE DEVILS EYE, MALOCHIA

I'll erase the past
So you can see your future black
Turn the god you worshipped
To the scapegoat you lack
I'll open your eyes to this world
Of dreams and beyond
And this ancient "me" will turn
You into your real form
