"Nocturnal Rhapsody"

The wolves wake up in their lairs
A fullmoon symphony
For whom the bell tolls
A creepshow ceremony
Vampire fangs for the beauty
Nocturnal rhapsody
The witchking breathes the horror
In gothic harmony

[CHORUS:]
Enchanting voices
Of the demons call
Takes you to the end of the light
Enchanting voices
Ceremonial call
Welcome to Satan's night

A pale white vampirella mistress
Seduce to devastate
She locks out her creatures
They live on your hate
Is 666 for the evil?
Or is it our fate?
The beast is ready to live now
It's never too late

[CHORUS]
