I am the swarm of locusts  
Set on the world by the prince and the power of the air  
My master Satan is upon four winds  
The sickening lord of all disease  
Bloating the corpse of Christ Whore-Borne  
I send flies upon the suffering  
And breed worms  
In their mourning skin  
Resisting exorcism  
With litanies of shame  
Expel the Holy Ghost  
Screaming curses at his name  
Winged Pazuzu  
Ejaculating fire  
From serpent loins of poison life  
Osculus obscenum  
Kissing blight  
Upon the grieving sons of man  
A pact made with Satan  
Spewing swarms of demon seed  
Inflicting humankind  
With misery
