There's a vibe within the air
And it's every, everywhere
If you reach out you can hold it, hold it
If you only seek, seek the right way

Try love, Jah love, try love, Jah, Jah love
Try love, Jah love, I love you

It's a feeling deep within
And without it life is really grim yeah
It fills a space of unhappiness
So, try a little loving, that's my request

Try a little lovin'
'Cause it's lovin' we need
Letting go the pain
That makes my heart bleed

Try a little lovin'
'Cause it's lovin' we need
Letting go the pain
That makes my heart bleed
Try a little love

If we only club together, hey
And learn to live, live with one another
Tears or pains would never be, hey
And to this I'm sure you'll all agree

Try love, Jah love, try Jah love
I said you gotta try, said you gotta try
Try love, Jah love, Jehovah I love you

Try a little lovin'
'Cause it's lovin' we need
Letting go the pain
That makes my heart bleed

Try a little lovin'
'Cause it's lovin' we need
Letting go the pain
That makes my heart bleed

Try a little love
You've gotta try, try to know, oh

Try a little lovin'
'Cause it's lovin' we need
Letting go the pain
That makes my heart bleed

Try a little lovin'
'Cause it's lovin' we need
Letting go the pain
That makes my heart bleed
Try a little love
Oh, I feel the pain yeah yeah

Try a little lovin'
'Cause it's lovin' we need
Letting go the pain
That makes my heart bleed

Try a little lovin'
'Cause it's lovin' we need
Letting go the pain
That makes my heart bleed
Try a little love

You've gotta try, you know
Before it's too late
Ooh, I don't wanna cry
Don't you know, don't you know
