How many times you gonna do
What you do to me
Still I turn around and take it like that
Just for the love and all the joys that you make me
Feel
So I really couldn't turn my back
Lady forever, ahhh
I'm the one who's gonna be by your side
Here and for always
Ooh, always and forever
Every minute, every second, take your time, no need to
Rush
A little bit of hugging, a little bit of kissing, with
Your sweetest tender touch
['Cause boy you got my deep affection
Take your time no need to rush
A little bit of hugging, a little bit of kissing, with
Your sweetest tender touch
Oooh,
Oooh, I'm gonna love you baby
Oooh,
Oooh, I'm gonna love you baby]
For better or worse I'm gonna love you and girl and
That's for sure
I'm the kind of man who plays for keeps
Being alone it wasn't something I wasn't planning for
Love and tenderness this rude boy needs
Lady forever, ahhh
I'm the one who's gonna be by your side
Here and for always
Ooh, always and forever
Every minute, every second, take your time, no need to
Rush a little bit of hugging,
[Hug me]
A little bit of kissing,

[Kiss me]
With your sweetest tender touch
['Cause boy you got my deep affection
Take your time no need to rush
A little bit of hugging, a little bit of kissing, with

Your sweetest tender touch
Oooh,
Oooh, I'm gonna love you baby
Oooh,
Oooh, I'm gonna love you baby]
{Repeat verse 2x}
How many times you gonna do
What you do to me
Still I turn around and take it like that
Just for the love and all the joys that you make me
Feel
So I really couldn't turn my back
Lady forever, ahhh
[You promised forever, yeah, yeah]
I'm the one who's gonna be by your side
Here and for always
Ooh, always and forever
Every minute,
[Every minute]
Every second, take your time, no need to rush
[No need to rush]
A little bit of hugging,
[Hold me]
A little bit of kissing,
[Love me]
With your sweetest tender touch
['Cause boy you got my deep affection
Take your time no need to rush
A little bit of hugging, a little bit of kissing, with
Your sweetest tender touch
Oooh,
Oooh, I'm gonna love you baby
Oooh,
Oooh, I'm gonna love you baby]
