Verse:

No way to stop things from going out of hand  
It seems like, I'm lost in an endless maze

Sinking too deep into world's reality  
And loosing the sight for a perfect day

Chorus:

It's such a desperate game you play with me  
I'm dying from day to day again to be free  
It's out of my hands,

Verse:

The ship leaves and soon water's calming down again  
No gates, innumerable ways to go

No way of finding such balance in my life,  
I'm burning or lacking the will to rise

Chorus:

It's such a desperate game you play with me  
I'm dying from day to day again to be free  
It's out of my hands, out of my hands

It's such a desperate game you play with me  
I'm pushing the stone uphill again to be free  
It's out of my hands, out of my hands

Bridge:

Out of my hands, out of my hands
