Friday, Friday is a good time to shine  
Night sea journey's, journey's to unwind  
Losin' all survival signs  
Rerun movies takin' all your time

And a million vacations is what you've got in mind

Throwing out all kinds of fishing line  
Friday, Friday is a good time to shine  
Rant and rave leave this town behind  
And start over with a new dream to climb

And a million vacations is what you've got in mind  
(I can't wait to get away)  
And a million vacations is what you've got in mind

Everyone needs a town a tune a dream to survive on  
One to dance to, one to scream to survive on  
You need a high a face a space a chance to rely on

'Cause you can only drive down Main street so many  
times  
'Cause you can only drive down Main street so many  
times

Everyone needs a town a tune a dream to survive on  
One to dance to, one to scream to survive on  
You need a high a face a space a chance to rely on

'Cause you can only drive down Main street so many  
times  
'Cause you can only drive down Main street so many  
times  
And a million vacations is what you've got in mind
