Lily come near me
Lily come sit near me
You can survive and feel alive
Lily can become anyone

Lily come near me
Lily come sit near me
You've gotten this far
See what you are
Lily please become someone

No, I may never make it with sanity
No, I may never make it to be wealthy
So, if you're looking for success
What is it man, man, man?

I just hang around
Try not to feel down
Sometimes feeling cold
Freezing down my soul

Lily don't become
Things will turn around
So you'd like to be, so you can see
You can survive and feel alive
