Happiness is beginning to ride  
From the streets into paradise skies, oh

Tonight inaugurates rock 'n' roll wings  
Tonight bent to turn the world around  
And we hover and we leave the ground  
And the magic we need frees the dancer we wanna be

Happiness is beginning to ride  
From the streets into paradise skies, oh

Tonight rock 'n' roll wings, there's no rumor of the road  
No reason to explain  
The action tidal rock 'n' roll wave, paradise skies  
reflecting in our eyes  
And the magic we free is how pleasure moves and  
grooves on  
Move on

Happiness is beginning to ride  
From the streets into paradise skies, oh

The magic is free  
The magic is free  
From the streets into paradise skies

The magic is free  
The magic is free  
From the streets into paradise skies

The magic is free  
The magic is free  
The magic is free  
From the streets into paradise skies
