Don't ever say you love me
Cause it would be too much to bear
Unless you care, uh huh uh
Unless you care

Don't put me in Heaven
If I don't belong up there
It isn't fair, uh huh uh
Unless you care

Baby, if you only knew
The power you have over me
You could make me or
You could break me
With just one kiss, you see

So don't you let me dream about you
Cause it would turn into a nightmare
It isn't fair unless you care

It isn't fair, uh huh uh
Unless you care

Baby, if you only knew
The power you have over me
You could make me or
You could break me
With just one kiss, you see

So don't you let me dream about you
Cause it would turn into a nightmare
It isn't fair unless you care
