Stupid

It's such a joy
The virus of love
What am I to do
Again chasing a boy
I see him come near
I 'm growing so tense
I know for sure
He thinks I am dense

How do I fix this
It leads to no end
Where are you now
When I need my best friend
It's driving me crazy
I need you right here
I am acting so stuuupid
Every time he comes near

I am at the gym
And play with the ball
When he passes by
I'm pretending to fall
He does n't react
I feel such a fool
I know for sure
He thinks I am dull

How do I fix this
It leads to no end
Where are you now
When I need my best friend
It's driving me crazy
I need you right here
I am acting so stuuupid

And it happens every time
I can't ask will you be mine
I act like a cow
So stupid somehow

I'll never be with him
I am forever alooooooone

How do I fix this
It leads to no end
Where are you now
When I need my best friend
It's driving me crazy
I need you right here
I am acting so stuuupid

Ohooooohoh
How do I fix this
It leads to no end
Where are you now
When I need my best friend
It's driving me crazy
I need you right here
I am acting so stuuupiiiiid

So Stuuupid
Every time he comes neaeaeaeear
