[Verse 1:]

Hope you know  
I never meant to make you cry  
Even though as we get more  
And more we take our time (yeah yeah)  
To let you know  
That I am glad you were in my life  
Cause you made me  
Grow into a better woman and baby  
And I can't deny  
I took some time to get over you  
And even though my heart still bruise  
I really wanna say

[Chorus:]

I only give to you the best I had darlin'  
With every tear I she'd  
All I wanted was to love you  
But I hurt you so much more in the end  
I never could imagine waking up in the morning  
Without you next to me  
And even though our love is gone  
There was a time you had the best of me  
I never could imagine waking up in the morning  
Now it's plain to see  
And now my heart is a victim  
Of just another broken melody

[Verse 2:]

Our love is like a fairy tale  
You were my world and I was your girl

But I was so nieve  
I never got our happy ending  
When we were broke I stay mending  
And I just had to be for real

[Chorus:]

I only give to you the best I had darlin'  
With every tear I she'd  
All I wanted was to love you

But I hurt you so much more in the end  
I never could imagine waking up in the morning  
Without you next to me  
And even though our love is gone  
There was a time you had the best of me

[Verse 3:]

I can't go on any more  
I need to move on without feeling insecure  
I just wanted you to know how I feel  
How I feel

[Chorus:]

I never could imagine waking up in the morning  
Without you next to me  
And even though our love is gone  
There was a time you had the best of me  
I never could imagine waking up in the morning  
Now it's plain to see  
And now my heart is a victim  
Of just another broken melody
