You don't know what you do when you do it to me
I can't save you from yourself
But I can offer you a new start
And I can't take away your fears
But I can part the lips of your broken heart

Chorus:

Do you want me to take you home and show you what
my love can do
Do you want to go to heaven with my arms around you
Take my breath away if only you would say
It's only you and I and that's the way we'll stay
I'll take you there to my secret hide away

Verse 2:

So in love with you but I feel you know the truth
Every time you catch me a stare you know I stare at you
You get so close to me that I can almost taste your
breath
I do want to go to heaven with my arms around you

Chorus:

You take my breath away if only you would say
It's only you and I and that's the way well stay
I'll take you there to my secret hide away
I'll take you there to my secret hide away

Verse 3:

No other man can make mi gwaan like you
I wouldn't leff you baby ever even if I could
Mi nah go botha front you make mi wanna hug
An' yeah fi put it blunt
You got the goods, I got the tune
I sing this song just to prove
I wanna have you baby
I want every part of you
The good, the bad, the old n the new
Tell me what I say
Baby Boy I do

Chorus:

I do want to take you home and show you what my love

can do
You take my breath away if only you would say
It's only you and I and that's the way well stay
I'll take you there to my secret hide away
I'll take you there to my secret hide away

Baby baby I'll take you there
Baby baby baby
You're with me
I'll take you there
Take you there
