You gotta you gotta you gotta you gotta
You gotta you gotta you gotta you gotta

When am dropping moves on the floor
These guys watching they want more
When I move I dance hardcore
All the boys clocking like (whoa)
All my girls are looking at you
Wondering what you gone do
They watching my moves so tight
Wanna take me home for the night

Put your hands up
If you wanna break it down
Let the rhythm take you up, and touch the ground and
let it in
Put your hands up
If you wanna break it down
Let the rhythm take you up, and touch the ground and
let it

I never knew you were so good
I never thought you were that hood
You should have told me you were a dancer
Come over here let me spank ya
I never knew you were so good
I never thought you were that hood
You should have told me you a dancer
Come over here come over here

Twisting right down on to the floor
Curling shake that dance hardcore
Backing that thang up for sure
Got people clocking like (whao)
Watch me drop and shake it fast
Wanna touch but you can't grab
Wanna grab but you can't have
