Fuck you liar, you've been working for the wrong side
Now beware you'd better make up your mind
Now you see it was crazy to act the way you did
Fear the moment I'll strike
Fear the moment I'll rule the moment
I'll take your moment
Get busted! Bastard, get busted
Horny bub- you liked to do the 69?
The want for your youngest flesh
Fruity fruity fruity fruity
Your 18.8 prick, what a lovely sight
You have pestered, poisoned all their lives
I bet you nasty guy loved to be the swine
You have pestered, poisoned all their minds
Fear the moment I'll strike
Fear the moment I'll take your throne, I will turn it all
against you
