Stay cool, bub
We're sympathizers
Just be nice
Restrain your bodyguards
Drop your gun
Call the police
We are guilty of having bothered your gunmen
Grand them a rest
Fire your gunmen
Take us instead
We are the best there is at what we are doing
We shoot in the head
You have joy
You have fun
You are dead
Take delight in your life while you have it
Just be glad
You might do what you like for a while
But never mind
We'll get ya
We'll get ya fine
