How was it to meet me when you asked to start a thing
and I said "yeah"
You were afraid of of of of of letting yourself go
Howl the words that heal me
Howl your sighs and howl your screams and years
It's up to you to feel like you were alive
Life is fight
We gotta wake up and try
You'd better wake up and try
We don't care about the other side
Now we fight
We're gonna live our lives boring
Sleep's on the other side
Will you dare to wake and stop your waiting for the
bliss of the next world
I cannot stand that "no no no no, later boy"
Now you gotta love
You gotta lie
You gotta live your best dreams
It's up to you to make you and me feel alive
