You told me you were leaving
After all we've been through
Guess I'm fool falling in love with you
There ain't no use in crying
Do what you have to do
Guess I'm a fool falling in love with you.

[Chorus:]

You told me that the kind of love we have
Will last for a million years
I believe everything you said
You felt my heart with tears.
So long pretty baby
Go break some other heart in two
Guess I'm a fool falling in love with you.

[Chorus:]

You told me that the kind of love we have
Will last for a million years
I believe everything you said
You felt my heart with tears.
So long pretty baby
Go break some other heart in two
Guess I'm a fool falling in love with you.

Falling in love with you,
Falling in love with you
Falling, falling in love with you
