Show your face

Throw down the sheets

Engulfed in conflictions

Once again

The gold curtain

Is no longer

Considered a shelter (x2)

Considered a shelter!

Move!

Roll out the red carpet

For what we call the mainstay (x2)

Bury yourself

In accomplishments

You kept them all from me

Expected, to lead the way

You take my dignity

(And the kingdom came)

Goodbye(x2)

Show your face (x2)

Goodbye.
