Exhausted

At night, that ghost comes to haunt you  
He's here to clean these tears fallen on your floor  
At day, the sun tries to rise  
But he cannot shine enough to dry your eyes

At night, you try to imagine  
How better could be your life  
At day, you try not to think  
Cause the only thought you'd be happy  
Makes you sad

Everyone that you know  
They seem to shun you  
Everywhere that you go  
You're so scared

But this cannot continue  
You cannot continue to live like that  
You're exhausted, by your own life  
You're exhausted, by your own life

You want to breath, but the air is too cold  
You want to abandon, cause you are so bored  
You try to muddle through  
But as everytime, unfortunately you fail again

You feel demotivated  
You feel betrayed  
By this whole world you cannot fit in

Whoever that you meet  
They seem to shun you  
Whatever that you do  
It seems to be wrong

Stop this by yourself  
You don't need anyone  
You're exhausted by everything  
You're exhausted by everything

Everyday, you wake up ,  
You still feel lonely.  
Everynight, when you cry.  
You're alone
