Visit "[Bastard](#)" on MotoLyrics.com

Don't hide your anger
In the depth of soul
Don't look at people
Thinking they're just waste

Murderous thoughts
Settled in your head
And friends you love so much
Fight against you

You're bastard - black sheep of life
You're bastard - society refuses you

Flying in delirium
Trying to forget
Life is getting shorter
Do you understand?

You're desolate, alone
You're the curse, the bastard

Unhappy life - just your fault
Everything good is lost
Start to live a normal life
And forget about everything

You're bastard - black sheep of life
You're bastard - society refuses you
