"Last Thoughts"

Visit "[Last Thoughts](#)" on MotoLyrics.com

Grief is spreading - sorrow grows
Here's the time to think about the life

Last thoughts of painful existence
They fill the heads with pain
Unable individuals
Come in the world of graves

Why? Motherfuckers! Why?
Why? Motherfuckin' face! Your face

This world is lost
Sorrow's hurting everyone
And everyone is guilty
Just calm down and wait for destiny

Last thoughts - nothing is true
It had to come one day - last thoughts

Shivering in agony - mind's slack
The only thing remained - last thoughts
