Till the old age makes you dead
Whisper your last wishes
There's no time that left
Quickly do what you wanna do -
Just what you wanna do

Say a prayer - here's your time
Make a spit - just don't mind
Enjoy yourself - before you die
Wanna sleep - to fall asleep forever

Which court
Which court takes your life away
Which court
Which court can be merciful

Say a prayer - here's your time
Make a spit - just don't mind
Enjoy yourself - before you die
Wanna sleep - forever ...amen

Which court
Which court takes your life away
Which court
Which court can be merciful
