Behold and see as a dream goes by
Through the lunatic's third eye
Within his mind where visions fly
There's an answer to every "why"

Why? - why do the victims cry
Why? - why have the innocents to die
Why? - who and why the fuck am I
Why? - why the fuck's there always any "why"

Let me show you way you could fly
Take a dose, oh, you can fly so high
My only wish is to make you cry
Hey fool it's your time to die ... so die!

Why did you listen to me?
What at all you wanted to be?
Don't you have the eyes to see
To discern dream from true reality?

Remember ... there's no time to say "good-bye"
And all you have done ... you can't deny
Behold ... lunatic's third eye
Now ... time has come to die ... so die!

Why? - why do the victims cry
Why? - why have the innocents to die
Why? - who and why the fuck am I
Why? - why the fuck's there always any "why"

Behold and see as a dream goes by
Through the lunatic's third eye
Within his mind where visions fly
There's an answer to every "why"
