It's my party
It's my party
It's my party

Slow down, don't move so fast
If you wanna make a lotta moments last
'Cause the moments turn to minutes and the minutes
move so fast
Before you even know it you're living in the past

People are always acting too hot or too cold
They don't wanna know ya if you can't be controlled
Try to buy the future but it can't be sold
It's the will of your soul that you can get ya to your goal

So much jealousy, secrecy
Negativity I refuse to see
No mystery, no reality
It's just a fantasy and it's my party

It's my party
Following my intuition
Happiness is my ambition
Life just keeps on getting better
It's my party, come together

Never needed your permission
Having fun is my tradition
I've been dancing into forever
It's my party, come together

Oh, oh
It's my party come together
Oh, oh, oh
It's my party come together

Read between the lies of the black and white
'Cause the sun may shine in the middle of the night
The sky's still blue without clouds in sight
At the end of the tunnel there's always a light

Things aren't always what they seem to be

What feels like defeat may be victory
Don't pass judgment on what you see
What's wrong for you may be right for me

I don't wanna know what you've got to say
Don't need advice gonna do it my way
I'm never looking back on yesterday
Gonna live, love my life each and every day

It's my party
Following my intuition
Happiness is my ambition
Life just keep on getting better
It's my party, come together

Never needed your permission
Having fun is my tradition
I've been dancing into forever
It's my party, come together

Oh, oh
It's my party come together
Oh, oh, oh
It's my party come together

It's my party
It's my, it's my party
It's my, it's my party
It's my, it's my party
It's my party

Que sera, sera, what will be will be
Believe none of what you hear
Only half of what you see
A promise is a promise, not a guarantee
Nothing in this life ever comes for free

Drunk with desire, hearts on fire
When you look into mirror are you looking at a liar?
Evita, Diana, they both inspire
Let the power of example take you higher and higher

Everyone is dancing to a different beat
From the countryside to the city street
I want us all to come together I want us all to meet
'Cause it's my party get up on your feet
Get up on your feet

It's my party
Following my intuition
Happiness is my ambition

Life just keeps on getting better
It's my party, come together

Never needed your permission
Having fun is my tradition
I've been dancing to it forever
It's my party, come together

Oh, oh
It's my party come together
Oh, oh, oh
It's my party come together

It's my party come together
It's my party
It's my party come together
