You're my angel, my angel  
Sent from heaven above  
Like a song in the night  
You're my sweet lullaby  
Please tell me you're mine

I need you close to me  
Close to my heart  
You took my breath away  
Right from the start

Cover me with tender kisses  
Wrap me with your sweet embrace tonight  
Let me build my world around you  
Let my loving arms surround you tonight

You're my angel, my angel  
Make my dreams come true  
Take my sadness away  
All that's empty and gray  
Please tell me you'd stay

Baby, wanna be with you forever  
Sweet angel, I need you right now  
Oh baby, baby, please
