Sometimes I find myself alone and

Looking to the stars

Recalling that deep belief

Inside our eyes

Some times we have to face the world

Alone and without help

With hope I can feel stronger

But it could suddenly change

Fears are real

I can't control the emotions

If I loose my dreams

I won't see more ways

Searching for another sun

A new source of life

I just wanna run

Free for flying

To the stars

Oh! Another sun
