"Follow The Way"

Visit "[Follow The Way](#)" on MotoLyrics.com

I'm hiding from darkness
Deferring my future
My dreams are like
A castle of sand

I'm facing my destiny
Running into reality
I remember those letters
Burning my little hands

Searching for my pride
I have no more time
Reaching all my goals
If keep on loving

If we can change
Inside our minds
If we believe
We can change inside our hearts

Now I will follow the way
I'll never worry about the past
And your loving brings peace
To my heart
